He soon became a popular minister, and in the years he has been there he has built up a large congregation, and it continues to grow. Some time ago the members concluded that the building was inadequate to accommodate the fast growing congregation, and a move was started to raise funds for a more commodious edifice. The building has been recently completed and dedicated at a cost of \$28,000, all paid. This building stands as a monument to the management of Virtes Williams, an Adair county boy, who is an earnest worker for the cause of his Master.

Poach Your Egg and Eat the Hen Later!

The poultry specialists of the United States Department of Agriculture say, will aid 150,000,000 eggs to our food supply this year without reducing our supply of chicken meat. Investigators have found that because poultry brings 2 cents a pound more in winter than in late spring, many farmers in the South have been throwing away valuable egg profits just to get 8 cents more per hen. They believe that if farmers will keep their laying hens and sell their eggs and then market the birds in the late spring, they will not only add to the food supply, but actually increase their profits 50 cents per hen.

The March American Magazine.

Everyone interested in the war, every father and mother who has a boy in the service, will be grateful for the message of cheer that is given in the March American Magazine by Surgeon-General Gorgas and Private Peat. Surgeon-General Gorgas tells in an interview what the chances are of getting hurt or killed in this war, and his facts are indeed cheering. Private Peat, the famous soldier-lecture, tells in a wonderful article "Why We Come Smiling Out of Hell" his story is inspiring and thrilling.

The lecture of Frederick W. Taylor, the father of Scientific Management, and the man who work on steel alone has been worth between \$50,000,000 and \$100,000,000 a year to the machine industry of the country, is printed for the first time in this issue.

Address, 381 Fourth Ave. New York.

A few Words From Illinois.

Mr. Alexander Murrell, son of Mr. Howard Murrell, writes us in part from Champaign, Ill.

"Winter has at last let go its hold upon us. It has been the worst winter on record in Illinois, but it has been one of the healthiest—no colds, no lagrippe.

"The thing that worries us most now is the seed corn problem. Most of us picked our seed corn early last fall, but the cold weather has killed fully one half of it. We are scouring the country for every available ear that will grow, and we are glad paying from \$7.50 to \$15.00 a bushel for it. We fully realize the importance of having every grain grow, as our allies as well as our home people are depending upon us.

"Dad and Nina are well satisfied in this State, but Mamma, Garret and Margaret have a longing for the old Kentucky Home. As for me, I love Illinois, to live in, but I do love to return to old Kentucky once and awhile. Relatives, old friends and old scenes still have a place in my heart, and will as long as I have breath. I am proud of the fact that I am a Kentuckian.

"Jesse and Walter are helping to lick Kaiser Bill. Jesse is an aviator and Walter is a seaman, and is somewhere on the Atlantic. Jesse is in a training camp at Great Lakes. He will go to France in three weeks.

(To Mr. Murrell.—The other matter is under consideration.—Ed News.)

Frank Toliver bought ten mules in Jamestown the first day of the present term of the Russell circuit court. He paid from \$140 to \$185 per head.

Off for the War.

Patriotism was manifested on the public square last Friday afternoon when the many young men of Adair county who had passed for service, who at the sound of the bugle, fell into line, the stars and stripes floating, and marched around the square. Parents, wives, brothers, and sisters, and sweethearts, were here, and while the boys had enlisted to fight for their country—no greater honor could come to them—the shaking of the hand was a serious thing and the words "good-bye," were hard to say. There were thirty-four in number, all leaving at 9 o'clock Saturday morning. We believe that they, one and all will do their duty, and we hope that the entire number will be permitted to return home at the close of hostilities, and not one bring back a charge that he turned his back to the foe. Kentuckians, born fighters, and we believe that God will sustain them in this the greatest struggle known to the world. When peace has been declared, President Wilson will write the terms, and the boys will come home shouting; all honor to "Uncle Sam" and this free and enlightened country, made so by the patriotism of her sons, who were determined to never bend the knee to a Monarch, entreating only that divine Being who rules and governs the universe.

In the afternoon thirty-two Russell county boys whose names are published in this paper arrived, full of enthusiasm, headed by Hugh Ross. They left for the Camp after taking supper. The parting in Russell was as pathetic as the one recorded above. May God keep them in the hollow of his hand, and may they, too, be permitted to return and receive the embraces of parents and sisters and the glad hand from the girls left behind.
